

2021 Michigan MAGI Eligibility Levels

Under the Affordable Care Act, eligibility for income-based Medicaid and subsidized health insurance through the Exchanges will be calculated using a household's Modified Adjusted Gross Income (MAGI). The Affordable Care Act definition of MAGI under the Internal Revenue Code and federal Medicaid regulations is [available online](#). For most individuals who will apply for health coverage under the Affordable Care Act, MAGI will be equal to Adjusted Gross Income.

The chart above includes a 5% disregard calculation for Healthy Michigan Plan. Other MAGI related groups (children under age 19, pregnant women, parents/caretakers etc...) are also subject to a 5% disregard; however income levels including a 5% disregard have not been not calculated for other MAGI groups. Marketplace income levels are based on the 2019 federal poverty levels (FPL)
