VALUE-BASED PAYMENT PERFORMANCE REPORT

Reporting Period 10/01/2021 - 03/31/2022

We appreciate your continued partnership with Blue Cross Blue Shield of Michigan in providing quality dental services to Healthy Kids Dental members. We are excited about your commitment to participating in the Value-Based Payment program from October 1, 2021 through September 30, 2022, which is a critical component of the future of oral health and improving the oral health of all.

This Value-Based Payment Performance Report will be issued incrementally and communicates your performance against specific performance measures during the reporting period in the value measurement year of October 1, 2021 through September 30, 2022. Please use this as a resource to support your understanding of your performance in the Value-Based Payment program and as a resource to help provide the highest quality of care to your Blue Cross Healthy Kids Dental patients.

DentaQuest 

ACCESS

To improve access to dental care, Blue Cross Healthy Kids Dental enrollees have been assigned a dental home with a participating provider location. Your Location Access Rate is calculated by taking all unique assigned members who received at least one (1) dental service in the Value Measurement Year divided by the total number of unique assigned members to your office location/participating practice.

QUALITY/SAFETY

Clinical interventions, including dental sealants and fluoride, are effective in preventing and controlling dental caries.

*A sealant placed on a permanent molar of a child at the appropriate time can reduce decay by eighty (80) percent in the first two (2) years and continue to block decay for nearly five (5) years. The Value-Based Care Program includes incentive measure for Fluoride and performance information for Sealants. In the graph below you will see your incentive score as well as thresholds for Fluoride only. Performance information for Sealants can be found in the scorecard.

Estimated Value-Based Incentive Bonus

Value-Based Incentive Bonus Disclaimer: The Value-Based Payment Performance Scorecard and related Value-Based Performance incentive bonus calculations are based on preliminary claims data measured year-to-date, and the estimated Value-Based Performance incentive bonus is not guaranteed. The final Value-Based Performance incentive bonus is calculated and paid based on claims data from the full Value Measurement Year of October 1, 2021, through September 30, 2022.

Claims must be received and adjudicated by November 30, 2022 to be considered toward the incentive calculation.

SCORECARD DEFINITIONS

Domain Points

Is the sum of the measure points within the quality/safety domain.

Measure Points

Is a numeric value assigned to a specific measure (within a domain) that represents that measures relative contribution to the total domain points.

Clinical Success

Means the number of assigned members that successfully "receive" services for a specific measure.

Measure Outcome

A numeric value that indicates the provider's actual results on a particular measure, expressed as a percentage for quality/safety and access measures.

DEFINITION DETAIL

Assigned Member

Member assigned to a patient-centered dental home.

Incentive Pool

Maximum incentive amount available for the performance period.

Location Access Rate (Child 0-3)

Percentage of unique assigned members age 0-3 receiving any dental service (D0100 to D9999) at assigned location during performance year.

Location Access Rate (Child 4-20)

Percentage of unique assigned members age 4-20 receiving any dental service (D0100 to D9999) at assigned location during performance year.

Member Months

The total number of assigned members per month for each month of the VBC program.

Per Member Per Month (PMPM)

Amount paid per month for each assigned member.

Sealants Ages 6-9

Percentage of unique Assigned Members age 6-9 with sealants applied on first molars.

Sealants Ages 10-14

Percentage of unique Assigned Members age 10-14 with sealants applied on second molars.

Topical Fluoride

Percentage of unique Assigned Members with topical fluoride application
