

MPCA DENTAL THERAPY SCHOLARSHIP PROGRAM

Interested in an oral health career? Dental therapy may be right for you!

Dental therapists improve access to care by providing preventive and basic restorative care under the remote supervision of dentists. They work in offices, clinics, mobile dental units, and other healthcare settings within underserved communities.

The Michigan Primary Care Association (MPCA) Dental Therapy Scholarship supports students attending U.S. dental therapy programs who plan to practice in Michigan upon graduation. Scan the QR code for more information!

Eligibility Requirements:

- Acceptance into a CODA accredited dental therapy program (scholarship applications will be accepted even if educational program acceptance is pending)
- Completed FAFSA for the academic year
- 2 letters of reference
- Must work as a dental therapist in Michigan for 3 years
