12:00pm-1:00pm	Lunch	Lunch	Lunch
1:00pm-2:00pm	Risk Stratification and RAF Gap Closure Using Azara DRVS	Are you looking to maximize your Hierarchical Condition Coding (HCC) accuracy and effectively close Risk Adjustment Factor (RAF) gaps? In today's value-based care landscape, precise documentation and coding are paramount for accurate reimbursement and reflecting the true health status of your patient population. Achieve	Kara Gee, RHD, BS, Associate Director of Clinical Transformation, Azara

		greater accuracy in HCCs and effectively close critical Risk Adjustment Factor (RAF) gaps with Azara DRVS. We will also explore Azara Risk Stratification and how this varies from RAF as we navigate the world of Risk. This session will guide you through how to leverage DRVS tools to track, monitor high risk patient, and close RAF gaps in your patient populations.	
2:00pm-3:00pm	Azara Peer Sharing	An opportunity to share and network with health center peers using Azara. We will spend this time sharing Azara tips and tricks with health center peers split into groups according to EHR. Azara support staff will be present to facilitate peer sharing and help problem-solve.	Peer Sharing
3:00pm-3:15pm	Break	Break	Break
3:15pm-4:15pm	Time for Change: Tackling the Challenges of Maternal Health Care	Maternal health care remains a critical public health issue in the United States; we still experience significantly high rates of maternal mortality. This session will explore how data-driven insights can help practices identify patients with challenges and implement targeted maternal health interventions. Join us as we explore how Azara tools can support prenatal and post-partum care to ensure timely interventions and personalized care that address medical and non-medical needs.	Kara Gee, RHD, BS, Associate Director of Clinical Transformation, Azara
4:15pm	Closing	Closing	MPCA Staff
