

Health Center Careers Training Program

- The Health Center Careers Training Program (HCCTP) **reduces barriers** and **creates career pathways** by offering participants **on-the-job training and education**.
- HCCTP supports health centers in **recruiting, developing, and retaining** the healthcare workforce needed to ensure **critical healthcare services** are provided in communities.
- Health Centers are **valuable employers** with **80%** of MPCA's member health centers participating in **workforce education initiatives**.
